

Stormbringer

**FROM
THE HEART**

The Stormbringer company was founded in 1992. At first, Stormbringer supplied fresh fish to the domestic market only.

The company is able to function on foreign markets solely due to high quality of the products delivered and the guaranteed delivery policy. By exporting Baltic salmon, trout, pike-perch, turbot as well as cod fillets and pike-perch fillets, Stormbringer gained utmost appreciation from its foreign clients. It was primarily the result of the feedstock being sourced from solid and trustworthy suppliers only.
